

# Mosquitto

Authenticated client publishes  
a message on topic:  
"smartbox/1/temperature"

Mosquitto triggers an  
authorization event

## Plugin

Plugin requests list of  
permissions associated  
with the client role from  
the database

Does the  
list of permissions  
contain any permission  
with PUBLISH access  
for the topic "smartbox  
/1/temperature"?

**Authorized** request,  
proceed with the publish  
request

**Unauthorized** request,  
dismiss the publish request

No

Yes
